

# Diabetes and Cancer

## an International Symposium

organized by the Department of Internal Medicine  
and ICEPHA

Friday, March 25<sup>th</sup>, 2011

### Scientific Programme:

- |              |  |                             |              |   |
|--------------|--|-----------------------------|--------------|---|
| 9.00         | WELCOME  |                             | 13.45        | Role of kinase inhibition in therapy of cancer and diabetes<br><i>Axel Ullrich, Martinsried</i>                         |
|              | Dean   | Welcome address             |              |   |
|              | Lothar Kanz  | The global threat of cancer | 14.30        | Distinguishing between cancer-promoting and cancer-protective effects of inflammation<br><i>Martin Röcken, Tübingen</i> |
|              | Hans Häring  | Metabolism & cancer         | 15.00        | Impact of FGFR4 and Fetuin-A on cancer and diabetes development<br><i>Norbert Stefan, Tübingen</i>                      |
| 9.15         | Insulin and IGF-1 signaling, IRS-2 in tumors<br><i>Morris White, Boston</i>  |                             | <b>15.20</b> | <b>Coffee break</b>   |
| 10.00        | RAGE - a pattern recognition receptor bridging cardiovascular disease and cancer<br><i>Peter Nawroth, Heidelberg</i> |                             | 15.50        | Connecting metabolism and cancer through transcriptional co-factors<br><i>Mauricio Berriel Diaz, Heidelberg</i>         |
| 10.30        | PI3K at the interface between metabolic and oncogenic pathways<br><i>Bernd Nürnberg, Tübingen</i>                    |                             | 16.20        | Akt interacting proteins: role in insulin signaling and tumors<br><i>Reiner Lammers, Tübingen</i>                       |
| <b>11.00</b> | <b>Coffee break</b>  |                             | 16.40        | Obesity, diabetes and cancer: a matter of impaired immunosurveillance?<br><i>Helmut Salih, Tübingen</i>                 |
| 11.30        | Insulin signaling and metformin in relation to cancer: new developments<br><i>Michael Pollak, Montreal</i>           |                             | 17.00        | Obesity, diabetes and cancer - potential roles of calcineurin/NFAT signalling<br><i>Martin Müller, Tübingen</i>         |
| 12.15        | Genetic variation in metformin transporters<br><i>Matthias Schwab, Stuttgart</i>                                     |                             | 17.20        | Prostate cancer and expression of insulin receptor isoforms<br><i>Martin Heni, Tübingen</i>                             |
| <b>12.45</b> | <b>Lunch</b>   |                             | <b>17.30</b> | <b>End of meeting</b>   |

## Information:

Prof. Dr. Reiner Lammers  
Dept. of Internal Medicine IV  
Otfried-Müller Str.10  
72076 Tübingen  
phone: 07071-2987599  
reiner.lammers@med.uni-tuebingen.de

## Registration:

Please register via e-mail to  
reiner.lammers@med.uni-tuebingen.de  
Deadline: March, 23<sup>rd</sup>, 2011  
There is no registration fee.

## Sponsors:

Sanofi-Aventis, ICEPHA, Deutsches  
Zentrum für Diabetes-Forschung

## Scientific organization:

Hans-Ulrich Häring, Lothar Kanz  
and Axel Ullrich  
in collaboration with

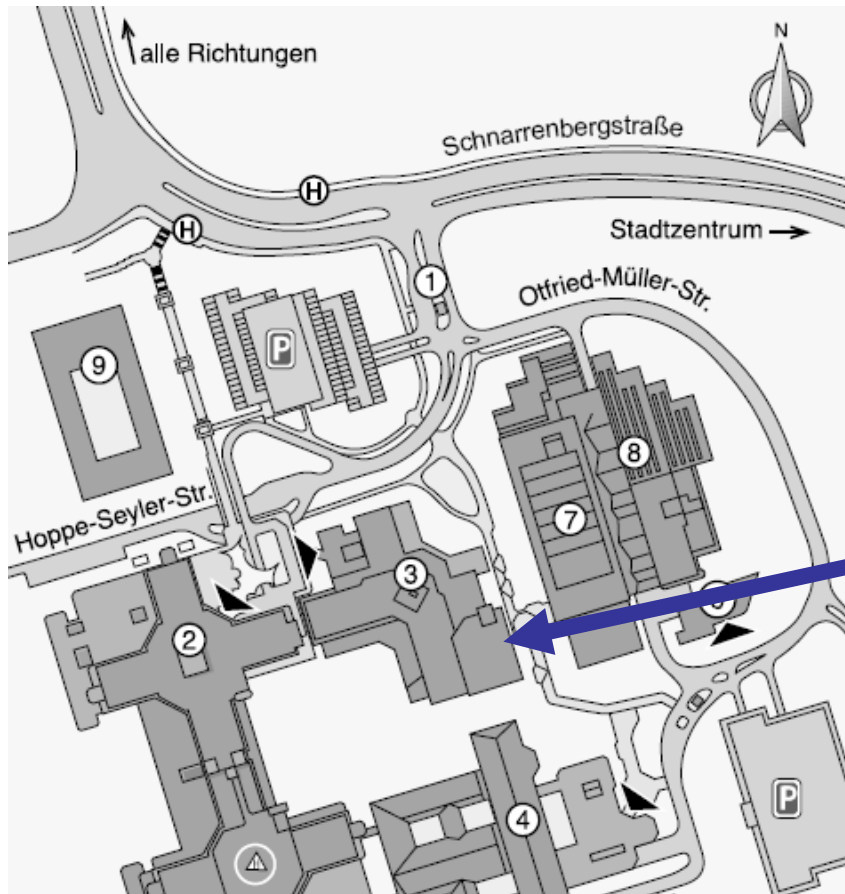

## Hotel reservation:

Verkehrsverein Tübingen  
Postfach 2623  
72016 Tübingen  
phone: 07071-91360  
e-mail: mail@tuebingen-info.de

## Location:

Lecture Hall of the Children's Hospital

Lecture  
Hall

- 1 - Information
- 3 - Children's Hospital
- 7 - Cafeteria
